## Cross Functional Teams

### Pipe Fabric Technology

We offer a wide range of products specifically designed to be used as technical reinforcements for pipe re-lining and repair

### Composites

We specialise in the manufacture of composite materials including glass and polypropylene.

### Flooring

We manufacture a variety of products for the flooring market, predominantly for carpet underlay.

### Industrial

We offer a vast range of technical materials to industrial industries such as automotive, marine, construction, and aerospace.

### Hook and Loop

We specialise in the manufacture of technical loop fabrics predominantly for the abrasive attachment industry. Other markets include medical and flooring.
